President / CEO	Amon Technologies / Dakessian Consulting www.dakessian-cnslt.com www.amontechnologies.jo
President / CEO	Technology Control & Consulting Services - USA www.tccscorporation.com
Vice President / CTO	Secured Telecommunications Systems www.sectel.jo

An active full member of the **Information Technology Association - Jordan (int@j)** and elected Member of its Board of Directors (2009) as well as member of the Information & Communications Technology Advocacy Council (ICTAC) to the Minister of Information & Communications Technology in Jordan.

Major consulting assignments include:

Director of Jordan's National Police Command, Control, Communications & Information (C3I) System project form 1988 to 1993. This system was unique in terms of its high level of integration (control, communications and information subsystems) and their nationwide implementation.

Computer & Communications Advisor to three consecutive directors of Jordan's Public Security Department form 1988 to 1993.

Senior Consultant part of the team of PADECO (Japan) consultants working for the World Bank sponsored Government Computer Capacity Improvement Project (GCCIP) in Jordan. The project involved re-writing and updating Jordan's National Information Policy Framework (August 2001), developing IT Business Plans for various government ministries and departments as well as the design of Jordan's Government Financial Management System network (GFMS).

Lead Consultant for the Regulatory Framework Strengthening component of the The REACH Initiative's 3rd review sponsored by USAID's AMIR Program in Jordan. The review involved the preparation of a comprehensive report on the current status of ICT related legislation in the Kingdom and recommendations on their further improvement. They were presented at the Jordan ICT Forum in September 2002.

Advisor to the Board Of Directors of the Jordan Insurance Federation. Designed and supervised the implantation of the National Electronic Motor Insurance System (NEMIS). A unique multi-stakeholder project designed to fully automate and enhance the issue, tracking as well as accidents and claims management of compulsory third party motor insurance policies on a nationwide basis.

ICT Policy Advisor to the Minister of Information & Communications Technology in Jordan 2005/2006

Advisor for the formulation of a concept paper outlining the recommended Key Performance Indicators (KPIs) for use by the Saudi Government's *Yesser* Program in 2007.

Consultant for a number of special assignments at the King Abdullah Design and Development Bureau (KADDB) - 2008/2009

Advisor to the Electricity Distribution Company (EDCO) in Jordan for the specification and selection of their new CSIS, Billing, Collections & Workflow Systems - 2009/2011.

ICT Consultant to the Jordan Investment & Finance Bank. Formulated a set of detailed Information Technology & Information Security Policies and Procedures - 2009/2010

ICT Consultant to the Electricity Distribution Company (EDCO) and the Irbid District Electricity Company (IDECO) for the formulation of a 3 Year ICT Strategy - 2010/2013

ICT Consultant to the Electricity Distribution Company (EDCO) and the Irbid District Electricity Company (IDECO) for the evaluation and technology validation of GPRS/FOC controllers for monitoring and managing electrical switchgear and meters. (2010-2011)

ICT Consultant to the Jordan Enterprise Development Corporation (JEDCO) for the formulation of technical and functional specifications for ECM, GMS and CRM systems as well as a comprehensive IT Infrastructure Assessment. (2010)
